The Commissioners then went into exscutive session.

It was learned that the case of the

Owing to the sudden indisposition of
President La Grange the meeting of
the Fire Commissioners was adjourned
this afternoon, before any action had
been decided upon in the case of Fire

Mrs. Falk Throws Suspicion on Her Common-Law Husband.

Antonio Falk, forty-nine years old, a ladies' dress cutter, is locked up in the Fifth street police station on suspicton of having poisoned his six-months-old child last Tuesday.

The child is dead, and from indications and the story told by its mother it was potsoned.

The mother of the child, who gives he name as Rosa Falk, but who says she is not married to the prisoner, entered the Fifth street police station this afternoon and told Sergt. McNally that her husband had poisoned her little daughter Jennie.
Rosa said she had been living with

During the first of the week Falk went to Newark to visit friends there. While there Falk said, according to Rosa's story, that his baby would no live long; that he intended to do away with it. Mrs. Falk said she learned this since her baby's death.

The funeral of the baby was to have taken place to-morriw, but on the order of Deputy Coroner Weston, preparations in this direction were stopped.

The certificate of death was issued by Dr. F. Volkenburg, of 64 Rivington street. The certificate gave for the cause of death indigestion and convulsions and stated that the child had been sick for four days. Mrs. Falk said that the child had not been sick previous to Tuesday.

The Coroner had not arrived up to 1.45 o'clock, but an autopay will be performed to determine the cause of the child's death.

Dr. Volkenburg was seen at his office by an "Evening World" reporter this afternoon. He said:

"It is my opinion that the child died of a Summer complaint alone. I saw no trace of poisoning.
"I treated the child once before for a Summer complaint. I do not know the father personally, but I think that the child's mother is angry at the separation."
